

WAR OF WORDS STILL ON IN SPOKANE FLATHEAD RESERVATION LANDS ARE DRAWN

One Man Would Blow Out Dam Making Johnstown Goldfield Druggist Receives Word that He is One of the Lucky Ones at Spokane.

(By Associated Press.)
SPOKANE, Aug. 12.—John Wilson, former United States senator from Washington, and John Farson, a millionaire banker of Chicago, spoke in defense of Richard Ballinger before the National Irrigation congress today. In the early part of today's session Pardee again accused Ballinger of permitting the opening for entry of valuable water-power sites. This brought Farson to his feet asking if Pardee meant to insinuate the secretary was dishonest. With Pardee's reply that he meant no such accusation the incident was dropped.

The afternoon session was hardly under way when W. W. Ferrell, of Ferrell, Idaho, took the floor and severely attacked the power company which supplies power to the city of Spokane. His speech brought forth cheers and applause continuously. Ferrell stated that he had been a settler in Idaho for twenty-five years. "Now, after a quarter of a century," said the speaker, "the power company, one of many which threaten our very lives, has dammed up our valley, overflowed our lands, drowned out our crops,

while many are about to lose their very means of livelihood. I'm not an anarchist; I want to see the law obeyed. But I want to say that there are men in my town who will smash that dam with dynamite and send a forty-foot wall of water down this valley. What will happen to Spokane will make Johnstown look like common shedding tears if something isn't done."

Former Senator Wilson followed Ferrell. After reading a short time from typewritten notes, he suddenly flung them aside. He said: "There may be those who do wrong in this land; there may be water power companies that disobey the law, but I want to say here that I stand for Richard Ballinger—I shall hear no man say he's dishonest. I, too, am an early settler. I've seen suffering, toil, peace and happiness in this state, but today for the first time (shaking his finger at Ferrell), I've heard anarchy preached from the platform in Washington."

Among the other speakers of today were Mrs. Emmons Crocker, a delegate from the Federation of Women's clubs, and Dr. A. C. True, director of the experiment stations.

MAUER RETURNS.

(By Associated Press.)
M'CLOUD, Cal., Aug. 12.—Gus A. Mauer of Vacaville, believed to have perished in attempting to climb Mount Shasta Tuesday, walked into McCloud tonight after wandering two days on the mountain. He was completely exhausted. Mauer left Frank Morton of Sisson, at Thumb Rock on the slope of the mountain. He endeavored to find his way back to camp where he had left the horses, but strayed from the path and became lost.

INYO SETTLERS PROTEST ACTION OF UNCLE SAM

FOREST RESERVE LINES EXTENDED TO INCLUDE PATENTED LAND.

Inyo county settlers are up in arms. The government has extended the lines of the forest reserve in that section to include in the neighborhood of 123,000 acres of patented land. At a largely attended meeting of the chamber of commerce Monday afternoon last at Bishop, the citizens generally protested the action of Uncle Sam. Much of the land which under the extension of the lines is brought within the reserve, has been held for a great many years by settlers in that locality. They figure that the government is acting without its jurisdiction in the matter and will formally file complaints with the department of the interior.

ON VISITS TO SONS.

Grant Crumley, accompanied by his mother, Mrs. Sarah Crumley of Newkirk, Oklahoma, arrived yesterday. Mr. Crumley went to Reno where he met his mother. She will remain here for the summer, visiting her sons.

BABY IS CARRIED OFF BY BEAR

CHEBOGAN (Mich.), Aug. 12.—Reports reached the city today that a large black bear had carried away a baby 18 months old while the mother was picking huckleberries on the Macintosh plans, about 10 miles out of town.

The mother, a Polish woman, had left the child sleeping in charge of another child eight years old.

Sheriff Clute dispatched a posse of 10 men in charge of a deputy to the scene, but they were unable to find any trace of the child or the bear.

STRIKERS ARE ON THE RAMPAGE IN ONTARIO

(By Associated Press.)
FORT WILLIAMS (Ont.), Aug. 12.—For the first time in its history Fort Williams is under martial law. This resulted from the fight waged on the special Canadian Pacific police today by a thousand laborers. Twenty-four men were injured, three fatally, during the disturbance. The trouble was caused by the arrival of thirty constables from Winnipeg, a sight which seemed to rouse the strikers to frenzy. The strikers threatened tonight to burn the Canadian Pacific grain elevators. The Canadian Pacific railroad officials agreed to grant the demands of the men and put them to work under an increased schedule of wages when the first shot was fired. Officials then notified the mayor they would fight the strike to a finish.

WELCH ARRANGES TO FIGHT THE BATTLER

(By Associated Press.)
LONDON, Aug. 12.—Freddie Welch, the English pugilist, has arranged for a forty-five-round glove contest with Battling Nelson, to be fought in the United States in September. The battle will be for the world's lightweight championship.

(By Associated Press.)

SPOKANE, Aug. 12.—Of 2000 names drawn today for the Flathead Indian reservation, Joseph Furey, of Warsaw, Indiana, was the winner of the lucky number one. Judge Witten, who opened the Couer d'Alene drawing Monday, acted as superintendent today. A crowd of about 500 persons watched the drawing throughout the day. A striking oath was found in the application of Miranda Dickey of Pullman, Washington, who received an excellent claim. She swore that she was 85 years old and weighed just twenty pounds. She put Goldilocks to shame by measuring 53 feet 125 inches in height. Judge Witten allowed it. Six soldiers out of the first fifty names received prizes. The first woman to win was Eleanor McClellan of Missoula, Montana, who stated in her application that she was 70 years old. The professional speller from Arkansas was on the job again today. He frequently struck a snag. One of the worst came when he tried to pronounce Giuseppe Sharagilo. After several attempts, he stepped to the front of

the platform and said: "Anyway, the gentleman is from Harrison, Idaho," and the crowd cheered. The first twenty-five names for the Flathead land were: Joseph Furey, Warsaw, Indiana; Joseph Hodge, Deer Lodge, Montana; Patrick Quigley, Rosemont, Minnesota; Ed. M. Webber, Hillyard, Washington; Eleanor McClellan, Missoula, Montana; Will Zuchlke, Appleton, Wisconsin; Seth Stone, Vagones, British Columbia; Glen Llewellyn, Peaty, Montana; Lon Frank, Butte, Montana; C. T. Brownell, Desmet, South Dakota; Ed H. Charette, Goldfield, Nevada; Demetrius Rodamor, West Salisbury, Pennsylvania; Adam J. Ritz, Wenatchee, Washington; Jos. K. Foster, Mt. Carmel, Illinois; J. Rockman, Cascade, Montana; Sarah B. Cooper, Portland, Oregon; Alfred Wallin, Prairie du Chien, Wisconsin; S. W. Jacobs, Raymond, Kansas; H. Tower, Sisseton, South Dakota; James G. Pipher, Charleston, Illinois; A. B. Herriek, Welberville, Michigan; Alfred Cruzen, Morris, Minnesota; F. S. Bull, Helena, Montana; Isaac Hedrick, Brushy Run, West Virginia; Ed S. Dorman, Missoula, Montana.

SAN PEDRO AND LOS ANGELES VOTE TO CONSOLIDATE

(By Associated Press.)
LOS ANGELES, Aug. 12.—The election held in this city and San Pedro today to decide the question of consolidation of San Pedro to Los Angeles resulted in an overwhelming victory for the consolidation in both cities. San Pedro, where the fight was made against the movement by private corporations, gave a total of 727 votes for and 227 votes against consolidation. Through the election Los Angeles secures complete control of San Pedro harbor. The pre-election pledges this city to spend \$10,000,000 in improvement in the harbor during the next ten years.

UNCLE SAM HAS JUST UNEARTHED MORE SCANDAL

DUMMY ENTRYMEN ENLISTED TO DEFAUD THE GOVERNMENT OF COAL LANDS

(By Associated Press.)
DENVER, Aug. 12.—Within a month a hearing will begin at Seattle, Washington, that government officials claim will disclose proof of gigantic frauds in connection with the coal lands of Alaska. This investigation will be followed by similar hearings to be held in a score of cities.

Special agents have been working quietly for months securing evidence and will take the stand as witnesses. That more than 200,000 acres of rich coal land in Alaska have been filed upon by dummy entrymen procured through the agents of six corporations, the land office has ample evidence to prove, according to information made public tonight. The so-called dummy entrymen were recruited principally from the docks of Seattle, the mines of Butte, Montana, and from the laboring classes of Chicago. In many instances, according to the evidence, these men never knew or heard of each other, although they are described in the filing of the papers as members of a corporation organized for the developing of a section of the Alaskan fields.

HAYS ARRESTED.

(By Associated Press.)
SAN FRANCISCO, Aug. 12.—A warrant for the arrest of W. C. Hays, vice president and manager of the Union State bank, which was closed last month by State Bank Superintendent Anderson, was issued today. The complaint charges Hays with overdrawing his account with the bank while an officer of the corporation, which is a violation of the new banking law.

Railroad will be extended from Columbus marsh or Coaldale to Mono lake to haul this timber to Goldfield, Tonopah and other camps for the mines. If a corporation is formed to develop this country, build power plants and extend the Tonopah and Goldfield railroad the mentioned will be the principal incorporators and it will be one of the richest corporations in Nevada.

HARRY THAW MUST RETURN TO THE ASYLUM

HE WILL RENEW HIS FIGHT IN THE COURT OF APPEALS AT AN EARLY DATE

(By Associated Press.)
WHITEPLAINS, Aug. 12.—Harry Thaw's latest attempt to gain liberty was defeated today when Justice Isaac Mills dismissed the writ of habeas corpus. He declared the release of the prisoner would be "dangerous to public peace and safety." The order sending Thaw back to Matteawan will be signed tomorrow.

Thaw received the news with great outward calmness. He declined to give any statement, contenting himself with the assertion that he was disheartened and would continue his fight for liberty. "My next efforts," he said, "will be centered in the court of appeals, through which I expect to secure a hearing before a jury in my effort to have my commitment to Matteawan set aside."

In the decision Mills characterized Evelyn Thaw's tale of Madison Square Tower and similar stories about White as "wild, grossly improbable and evidently grossly exaggerated." It asserts belief in the testimony of Susan Merrill regarding Thaw's perverted practices and points out the contrast between Thaw's chivalrous attitude as a protector of young American womanhood and his private life. Mrs. Mary Copley Thaw tonight in a statement says the decision by no means means a victory for the district attorney of New York. Every prop, she says, was taken from under that arrogant, vindictive persecutor of a sane acquitted man. She charged Jerome with dominating the courts in his district except when wealthy malefactors were under trial. Mrs. Thaw concluded her statement by saying that she, her son, and her daughter would again take up the burden. They will remain close to the gate to help their son and brother endure an existence which, if perpetual, would be far worse than death.

WILL SHORTEN TIME.

In less than a year the people of Reno will be traveling to Los Angeles by the way of Mina, Keeler and Mojave.

SAM VAN SANT IS HONORED BY GRAND ARMY

(By Associated Press.)
SALT LAKE, Aug. 12.—Samuel R. Van Sant, former governor of Minnesota, became commander in chief of the Grand Army of the Republic today. He won over Judge William Ketcham of Indiana by a vote of 587 to 156. Mrs. Jennie I. Berry, of Des Moines, Iowa, won the fight for the national presidency of the Womans' Relief Corps. Elections were held in executive session, but were not provided in the order of business. It was held today owing to increasing departures. The election of a chaplain and the decision as to the next meeting place will be decided to morrow morning.

IMPORTANT STRIKE IN THE BELMONT MINE

Body of Ore Five Feet in Width Opened Up in the Winze from the 1100-Foot Level.

ANOTHER BROKER IS UNDER ARREST

(By Associated Press.)
NEW YORK, Aug. 12.—W. L. Clark, a noted broker representing M. M. Joyce, was arrested this afternoon. Clark is charged with the larceny of \$10,000, said to be part of the profits from curb sales of stocks which Joyce supposed to be safe in the vaults of the Windsor Trust company.

TESTIMONY IN SUTTON CASE HAS BEEN PRESENTED

(By Associated Press.)
ANNAPOLIS, Aug. 12.—The naval court of inquiry into the death of Lieutenant James N. Sutton, October 13, 1907, finished taking testimony today. It is stated that counsel arguments will be completed tomorrow. The court will then prepare its report and forward it to the navy department.

Ed Ryan, sergeant-at-arms of the late Nevada assembly and deputy mining inspector under Ed Stuart, came over from Goldfield last evening.

This is a Most Important Discovery When the Fact is Known that it is the Greatest Depth at Which Ore Has Ever Been Found in this Camp.

What might be considered the most important strike to be made in the mines of this camp was uncovered in the Belmont mine (Wednesday morning). The find is located at the bottom of the winze that is known as the 1056. It has not been a great while since sinking was resumed in this winze at the level corresponding with the 1100. At the present a depth of 1165 feet on the incline or a vertical depth of 1135 feet has been ascertained.

The new ledge is about five feet in width, although the exact measurement is not known as the shaft has not succeeded in cutting through it.

When asked about the strike yesterday afternoon, Superintendent S. H. Brady stated that while no assays had been received as yet, it was his opinion that the ore would go between \$30 and \$25 to the ton.

"The ledge was first thought to be the hanging-wall of the Belmont vein," said Mr. Brady, "but it is now virtually proven to be a distinct body. During the sinking of this winze, many small stringers were encountered and it was almost assured that we would find the big shoot nearby."

"This find is of considerable importance when the fact is known that this is the greatest depth at which ore has been found in the camp. The winze will be continued until a point corresponding with the 1200-foot level is reached when cross-cutting will be done. In performing this work there is a good chance of other shoots being opened up."

PARTY MAY CLOSE RAILROAD DEAL

(Special to the Bonanza.)

RENO, Aug. 12.—George Wingfield, president of the Goldfield Consolidated Mines company, accompanied by Charles Knox, president of the Montana Tonopah Mining company; C. M. Hobbs of the Nevada California Electric Light and Power company, and C. O. Whittemore, a prominent railroad man connected with the San Pedro line, left this evening in Wingfield's automobile for Mono lake, California. Charles Sadler accompanied the party as far as Carson City. The other members of the party will continue directly on to Mono lake.

While in the Mono lake country the party will visit Rush and Leavine creeks and inspect them for power sites and will go over the Bodie railroad running from Bodie into the timber belt. This road has been owned for two years by Knox and taps a large and rich timber district. It is stated that the men have an option on more than 15,000 acres of timber and if the timber is large enough and thick enough the Tonopah and Goldfield
